DRUG CALCULATIONS FOR NURSES, A STEP-BY-STEP APPROACH, THIRD EDITION

Robert Lapham, Clinical Pharmacist and **Heather Agar**, Rheumatology Specialist Nurse

978 0 340 98733 9 | JULY 2009 | 256 PP | PB | £9.99

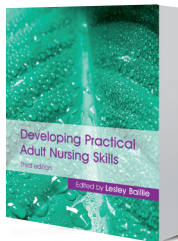

This pocket-sized market leader is the trusted, logical and convenient way for student nurses and professionals to carry out effective calculations. Fully revised, the latest edition includes:

- Easy-to-follow steps with learning objectives, tips, key points and worked examples to assist learning
- Real life case studies with clear accounts of clinical settings
- A new section on the action and administration of medicine explaining how drugs work in the body
- Comprehensive advice on using calculators, basic maths skills and checking answers
- AND an initial test to identify problem areas with a final chapter revision test to consolidate what has been learnt

Instil confidence and competence in your students...

Pocket-sized
